

Safety Scripts Templates and Guide

Review the four versions of a safety script below. Directions are included on the guide page to assist you to complete a safety script. The following pages offer fillable templates that can be used to create and print your own safety scripts. To learn more about safety scripts, review the brief video and safety script examples in the *Navigation Essentials Trauma and Resilience* toolkit.

Safety Script

We want this to be a safe place, and I won't let anyone
 name the behavior you want the person to stop

so, I can't let you

 again, name the behavior you want them to stop

because this is a safe place.

Safety Script - Writing Safety Scripts with Those We Serve and Support

We want this to be our safe place, it's important that no one

 Have the person name the behavior they do not want to happen

so, I am not going to

 again, name the behavior the person does not want to happen

because we want this to be our safe place.

Safety Script - Writing Safety Scripts to Build Safe Actions

We want this to be our safe place, it's important that we

 Have the person name safe actions they want in their environment,

so, I am going to

 again, name the safe actions they want in their environment

because we want this to be our safe place.
